

PEWAUKEE PUBLIC LIBRARY

Pewaukee, Wisconsin

APPLICATION

Libraries

CHALLENGES

- ◆ Design open, well-lit and comfortable floor plan for 2-story, 28,000 square foot facility
- ◆ Create display area and storage for CDs & DVDs

SOLUTIONS

- ◆ Optimized floor plan of new library
- ◆ Designed customized book cases for 50,000+ books and periodicals
- ◆ Provided customized lighting for book cases
- ◆ Supplied space efficient storage for audio and video materials

PROJECT DETAILS

- ◆ Cantilever shelving
- ◆ Periodical displays
- ◆ Computer work stations
- ◆ Customized lighting
- ◆ Media storage cabinets
- ◆ Special end panels and tops

WHEN THE PEWAUKEE PUBLIC LIBRARY IN PEWAUKEE, WIS., BUILT A NEW 2-STORY, 28,000 SQUARE FOOT FACILITY, AXIOM WAS BROUGHT ON TO OPTIMIZE THE LIBRARY'S FLOOR PLAN AND DESIGN THE SPACE AND STORAGE FOR THE LIBRARY'S MEDIA COLLECTION.

Axiom worked closely with a contracted architectural firm to design a clean and open facility that offered room for expansion, yet created an inviting atmosphere. They provided space efficient periodical displays, computer work stations, and media storage cabinets for DVDs tapes and CDs, as well as cantilever shelving with customized top and end panels for the large book inventory. Special lighting was also installed on the shelving to illuminate the books and make the titles easier to read. After the shelving and storage systems were installed, more than 50,000 books and periodicals from the old location were relocated to the new facility.

With an open floor plan, space efficient storage, customized shelving and special lighting, the new Pewaukee Public Library is able to offer its patrons a warm, comfortable and user-friendly environment to relax and enjoy its services.
